

# Learn to Play, Play to Learn ... it's packed with fun, for everyone!

**It's no secret that children learn and retain information better when they're enjoying themselves. Which is why learning through play is so powerful.**

## That's where we come in...

...working with schools since 2007, ImaginationGaming offer a variety of fun-filled and challenging table top activities designed to complement the school curriculum. Not only that, our games build and develop the soft skills required to succeed in everyday life. What your pupils can achieve and learn from one of our structured gaming programmes is **only** limited by their own imagination!

"Gaming changes the dynamic in the classroom, it gets the attention of the children, excites them all and guarantees their engagement in learning.

Learning without knowing it - Great!!!"

**Teaching Staff, The Mill Academy**

**Our activities concentrate on core skills, literacy, numeracy and oracy, through to more complex problem solving and STEM based learning. The days are designed to develop:**

**COGNITIVE DEVELOPMENT**

**SOCIAL AND EMOTIONAL DEVELOPMENT**

**MOTOR SKILLS**

**MATHS AND SCIENCE EDUCATION**

**LANGUAGE AND LITERACY**

**PERSPECTIVE AND WORLD KNOWLEDGE**

**PROBLEM SOLVING**

**CRITICAL THINKING**

**STRATEGIC THINKING**

An Imagination Gaming workshop is a valuable investment which continues to pay dividends long after the actual visit is over ... not only do the schools keep the games, pupils learn lessons for on-going development and staff gain the knowledge and resources that they can use and recycle for years to come.

## How you can learn from play...

It's different, it works and our activities can be tailored to the skills that you want to instil. Our aim is to leave your school with children thinking: **"I can do this, I enjoyed doing this, I want to do this again"** and teachers seeing engaged and happy pupils with new skills and a thirst to learn.

We're passionate about working with schools to inspire students to be the best they can be... in and out of the classroom! Our visits give teaching staff an ideal opportunity to observe their students in a different learning environment to discover what they engage with, and this can often influence how they engage with particular students moving forward.

## How it works...

A range of activities are available for pupils of all ages and abilities, from Foundation Stage through to KS3, including SEN. Our sessions can involve small groups or whole classes. We work alongside your existing timetable for minimal disruption.

### BREAKFAST CLUB

An exciting and fun sneak peek of the day ahead

### MORNING SESSIONS

Tailored games and activities to support the day's objectives

### LUNCHTIME

Spread the fun further as the pupils start to teach the games to their friends.

### AFTERNOON SESSIONS

A continuation of the morning's objectives, with more children and more games!

### AFTER-SCHOOL CLUB

After-school excitement, encouraging children, families and staff to discover the fun.

### Our range of services:

MATHS DAYS

LITERACY DAYS

CURRICULUM DAYS

GAMES DAYS

HOLIDAY & TRADITIONAL ACTIVITIES

SCHOOL TOURNAMENTS

WORKSHOPS

GAMES DAY PROGRAMME
